

Install OpenBUGS and WinBUGS on Mac

1. Install Homebrew first

(see <http://brew.sh/>):

```
In your terminal
ruby -e "$(curl -fsSL
https://raw.githubusercontent.com/Homebrew/homebr
ew/go/install)"
```

2. Install Wine

```
In your terminal
brew install wine
```

3. Install WinBUGS

(1) Download your winbugs from
<http://www.wcsmalaysia.org/analysis/ZIP/WinBUGSinstall.zip>
(2) put it into your /Applications folder (or any places you want)

(3) To Launch WinBUGS

```
cd /Applications/WinBUGS14
wine WinBUGS14
```

4. Install OpenBUGS

(1) Download OpenBUGS from
<http://www.openbugs.net/w/Downloads>

(2) Install OpenBUGS, in your terminal

```
wine OpenBUGS322setup.exe
```

By default you install in

```
C:\Program Files\OpenBUGS\OpenBUGS323
```

(3) make sure click Create a desktop icon

(4) To launch OpenBUGS, double click OpenBUGS.desktop
